

Data Structures · Chapter 3: Linked Lists

WU-NoteHub - sample study note

1. Linked List
2. Node: data + next pointer
3. Singly vs Doubly vs Circular
4. Insert $O(1)$ at head, $O(n)$ search
5. Use case: undo history, LRU cache

Summary:

This is a demo note used to test the WU-NoteHub file viewer.

Supports PDF preview inline and download.
